IRISES

SEASON OF 1933

Herein is presented a select list of the best and latest in irisdom:

Good, strong rhizomes, unexcelled in quality, with a fine root system, will be sent, properly labeled and packed, insuring their starting into vigorous growth when planted. Shipments will be made from about July 5th to November 1st, as customers desire.

All varieties are true to name. Satisfactory adjustments will be made on any proving otherwise.

Prices quoted are prepaid on orders of \$2.00 and over. Under \$2.00, add 25 cents for postage.

DISCOUNTS—Except on collections the following discounts are allowed: On orders of three or more varieties totalling \$10.00 to \$25.00 discount 10%; orders of \$25.00 to \$50.00 discount 15%; orders over \$50.00 discounts 20%.

RATINGS—We are giving the ratings as published in the Iris Society's Bulletin of October, 1932 — omitting however, the ratings of those varieties which were judged by less than five judges; it having been shown by criticisms received that an average of at least five judgments (the more the better) is necessary to give anywhere near a fair value to the variety judged.

COLLECTIONS—You will find exceptional values in the collections listed on page 5.

THOLE'S GARDENS

As stock of some varieties in above collections is limited, it will be advisable to order early. In the event of being sold out of any variety late in the season, I will either substitute a higher priced variety or refund the proportionate amount; or, I will consider customer's choice of a substitute and make the change if possible to do so.

All Iris enthusiasts should join the American Iris Society, annual dues \$3.00, which includes four quarterly bulletins—these alone being worth the \$3.00. Send subscriptions to Mr. J. B. Wallace, Jr., secretary, 129 Church St., New Haven, Conn., making checks payable to the American Iris Society.

BULBOUS IRIS

(Beardless)

The following list comprises the three main types, viz: Dutch, Spanish, and English. The flowers are of heavy substance and very fine for cutting. The Dutch bloom first, starting about the time Darwin Tulips are through; Spanish follow next, with the English last, the period of bloom covering six to eight weeks. Plant in the fall, 3 to 4 inches deep and 4 inches apart. After freezing weather cover with coarse litter to prevent heaving.

DUTCH IRISES

	Per Doz.	Per 100
THE FIRST—Large deep blue—earliest to bloom.....	\$0.75	\$4.50
WEDGEWOOD—Large, clear light blue—earliest to bloom.....	.65	4.00
